K'METROBOX 40L

NEW

KMX400B

→ BLACK VERSION

K'METROBOX KMX400 is the new top case in the Monolock® range, with an internal capacity of 40 liters, designed for those who love freedom on two wheels and want to travel in a practical and safe way.

It includes a mounting plate and a universal fitting kit.

Equipped with the CRABLOCK pressure lock system, it allows quick and easy access: by turning the key, the lid slightly lifts, enabling a fast opening of the case.

The quick-release system with an internal release knob lets you detach the case from the plate only when the lid is open, preventing accidental removal.

Despite being extremely lightweight, the case retains all its sturdiness.

K'METROBOX comes in two different finishes:

- KMX400A: natural aluminum
- KMX400B: matte black painted (with natural aluminum-colored interior)

Features:

- 6 technopolymer strap loops
- Holds 2 Demi-Jet helmets*
- Internal capacity: 40 liters
- Maximum load: 3 kg
- Dimensions: 43 x 30 x 36 cm
- Inner lining made of recycled R-PET

*Check helmet size depending on brand/model

RAPID RELEASE

CRABLOCK
SYSTEM

Included accessories:

- Monolock® mounting plate
- Universal fitting kit

Inside, a practical orange inner lining made of recycled R-PET protects your belongings and keeps them stable while riding.

Materials:

- 1.2 mm natural aluminum
- Technopolymer for profiles, corners, and strap loops

Optional accessories:

- E161K – internal elastic net for top case
- KS350 – pair of Adventure Straps
- K645 – backrest

K'METROBOX 50L

NEW

KMX500A

K'METROBOX KMX500 is the new top case in the Monolock® range, featuring an internal capacity of 50 liters, designed for those who love the freedom of two wheels and want to move around in a practical and safe way.

It comes complete with a mounting plate and a universal fitting kit.

Equipped with the CRABLOCK direct pressure opening/closing system, it allows for quick and easy use: by turning the key, the lid slightly lifts, enabling rapid access to the case.

The quick-release system with an internal release knob lets you remove the case from the plate only when the lid is open, preventing accidental detachment.

Despite being extremely lightweight, the case maintains all of its robustness.

K'METROBOX is available in two different finishes:

- KMX500A: natural aluminum
- KMX500B: matte black painted (with natural aluminum-colored interior)

Features:

- 6 technopolymer strap loops
- Holds 2 Demi-Jet helmets*
- Internal capacity: 50 liters
- Maximum load: 3 kg
- Dimensions: 43 x 35 x 36 cm
- Inner lining made of recycled R-PET

*Check helmet size depending on brand/model.

K'BOX

NEW

KB37N

K'BOX KB37N is the new top case in the Monolock® range, featuring an internal capacity of 37 liters, ideal for scooters and lightweight motorcycles.

Its compact and functional design makes it perfect for both urban and touring use.

It comes complete with a mounting plate and a universal fitting kit.

Equipped with the CRABLOCK direct pressure opening/closing system, it allows for quick and easy access: by turning the key, the lid slightly lifts, enabling rapid opening of the case.

The quick-release system with an internal release knob lets you remove the case from the plate only when the lid is open, preventing accidental detachment.

Despite being extremely lightweight, the case retains all its strength and durability.

Features:

- Holds one modular helmet*
- Internal capacity: 37 liters
- Maximum load: 3 kg
- Dimensions: H 31 x W 40 x D 40 cm

*Check helmet size depending on brand/model.

Safety:

Reflective stickers enhance visibility in low-light conditions, improving rider safety on the road.

K'RUGGED

NEW

AV00B

K'RUGGED AV00B is the restyled version of the previous AV00, featuring a completely renewed design and structure. It offers improved fit on the motorcycle and enhanced mounting compatibility with side or saddle bags from the same range. This system provides a lightweight and practical transport solution for off-road motorcycles, without the need for permanent drilling into the bodywork.

Main features:

- Modular design allows you to customize your luggage combination according to your travel needs
- Compact main body, adaptable for different uses
- Included straps with multiple mounting points
- Quick installation and removal from the motorcycle in just a few minutes
- Compatible with AV01, AV02, AV03, and AV04

Materials:

- Hypalon / Poly 1680D / No-Slip Fabric

Mounting system:

- Straps

K'RUGGED

NEW

AV08

The AV08 K'RUGGED is a tank bag featuring a removable water-resistant inner liner, ideal for enduro touring. It is equipped with the Tanklock quick-release system, allowing installation and removal in just a few seconds.

Volume: 5 liters

Maximum load: 2 kg

Mounting system: Tanklock

Dimensions: W 20.5 x H 10 x D 24.5 cm

Materials:

- Polyester 1680D with PU coating / Hypalon
- High UV-resistance external material (ref. ISO 4892-2)
- Materials compliant with REACH regulations

Features:

- Supplied water-resistant inner liner
- Reflective prints and inserts to enhance visibility
- Drain holes at the base for water runoff
- M.O.L.L.E. system on the top, compatible with a smartphone holder mount

Included equipment:

- Safety strap for the steering column, which can also be used as a shoulder strap for carrying

Compatible accessory:

- AVSH smartphone holder mount (sold separately)

→ SOFT BAGS
K'RUGGED

NEW

AV09

The AV09 K'RUGGED is a water-resistant tank bag made with heat-sealed materials and a thermo-taped inner liner, ideal for both touring and enduro riding. It features a strap and quick-release buckle mounting system, ensuring easy installation and removal.

Volume: 3 liters

Maximum load: 2 kg

Mounting system: adjustable straps

Dimensions: W 16 x H 10 x D 22.5 cm

Materials:

- Tarpaulin / Hypalon / PVC no-slip
- High UV-resistant outer material (ref. ISO 4892-2)
- Materials compliant with REACH regulations

Features:

- Water-resistant interior with thermo-taped inner liner
- Reflective prints and inserts for enhanced night-time visibility
- Drain hole at the base for water runoff
- M.O.L.L.E. system on the top, compatible with a smartphone holder mount

Included equipment:

- Safety strap for the steering column, which can also be used as a shoulder strap for carrying

Compatible accessory:

- AVSH smartphone holder mount (sold separately)

→ SOFT BAGS
K'RUGGED

NEW

AV05S

The AV05S K'RUGGED is an external shell specifically designed for the AV05 engine guard bag. Its functionality mirrors that of the AV07: the AV05S acts as a protective outer shell for the AV05, helping to absorb minor impacts and scratches while keeping the bag clean from mud, dust, and weather elements. Once off the bike, you can remove only the AV05 bag, leaving the AV05S attached to the engine guard or to the outer shell of the AV07.

Maximum load: 2 kg
Mounting system: straps
Dimensions: W 18 x H 23 x D 8 cm

Materials:

- Hypalon / Poly 1680D / No-Slip Fabric
- High UV-resistant outer material (ref. ISO 4892-2)
- Materials compliant with REACH regulations

Features:

- Reflective prints and inserts to enhance night-time visibility

NEW

AVSH

The AVSH is a water-resistant smartphone holder accessory made with heat-sealed materials, compatible with the M.O.L.L.E. system featured on the top of the AV08 and AV09 tank bags.

Mounting system:

Two reinforced tabs that lock securely into the bag's M.O.L.L.E. system, plus a strap closure.

Dimensions: W 13 x H 1 x D 21 cm

Materials:

- Tarpaulin / PP board for internal reinforcement / PVC
- Materials compliant with REACH regulations

Features:

- Touch-sensitive PVC screen
- Compatible with AV08 and AV09 tank bags
- Reinforced tabs for easy and secure attachment

K'STORMER

NEW

ST0101

ST0101 K'STORMER is a small tank/saddle bag with a 3-liter capacity, designed to attach and detach in seconds thanks to the quick-release system compatible with Seatlock & Tanklock.

Features:

- Maximum load: 2 kg
- Volume: 3 liters
- Dimensions: W 19 cm × H 16 cm × D 23 cm
- 3M high-visibility reflective inserts
- Two possible Tanklock mounting positions
- Cable port for charging electronic devices

Included equipment:

- Safety strap that can also be used as a shoulder strap

Materials:

- Main fabric: POLY 600D BLACK
- High UV-resistant outer material (ref. ISO 4892-2)
- Materials compliant with REACH regulations

Accessories:

- Rain cover (sold separately)

The ST0102 K'STORMER is a pair of expandable side bags with a top-loading opening, designed to easily fit most motorcycles and scooters. For added safety and to keep them away from the wheel and exhaust, the use of side frames is recommended.

Features:

- Maximum load: 5 kg each
- Volume: 23 → 30 liters each
- Dimensions: W 17 → 22 x H 32 x D 45 cm
- Velcro fastening straps for saddle mounting, compatible with the Remove-X frame, plus straps for footpeg attachment
- Internal reinforcements in polypropylene and EVA for improved rigidity and stability
- 3M high-visibility reflective inserts

Included equipment:

- Shoulder strap for easy carrying
- Anti-slip PVC inserts on the back to protect the motorcycle fairing
- Flame-resistant bottom panel

Materials:

- Main fabric: POLY 600D BLACK
- High UV-resistant outer material (ref. ISO 4892-2)
- Materials compliant with REACH regulations

Accessories:

- Pair of rain covers (sold separately)

→ SOFT BAGS
K'STORMER

NEW

ST0103

The ST0103 K'STORMER is a 10-liter tank bag equipped with a PVC touchscreen smartphone pocket. It attaches and detaches in seconds thanks to the patented Tanklock quick-release system.

Features:

- Maximum load: 2 kg
- Volume: 10 liters
- Dimensions: W 22 x H 16 x D 34 cm
- 3M high-visibility reflective inserts
- Two possible Tanklock mounting positions
- Smartphone pocket dimensions: 8.2 cm x 20 cm
- Cable port for charging electronic devices

Included equipment:

- Safety strap for the steering column, which can also be used as a shoulder strap for carrying

Materials:

- Main fabric: POLY 600D BLACK
- High UV-resistant outer material (ref. ISO 4892-2)
- Materials compliant with REACH regulations

Accessories:

- Rain cover (sold separately)

K'STORMER

NEW

ST0104

The ST0104 K'STORMER is a 35-liter saddle bag from the new K'STORMER line, featuring stitched reflective bands and elastic inserts that give it a technical, outdoor-inspired design. It uses a strap-based mounting system with double D-rings at the front and back, plus a central safety strap at the base that can be secured under the saddle or tail of the motorcycle.

Features:

- Maximum load: 5 kg
- Volume: 35 liters
- 3M high-visibility reflective inserts
- Additional side opening for easy access

Included equipment:

- Shoulder strap for convenient carrying

Materials:

- PU-laminated polyester
- Main fabric: POLY 600D BLACK
- High UV-resistant outer material (ref. ISO 4892-2)
- Materials compliant with REACH regulations

Accessories:

- Rain cover (sold separately)

WIRELESS AIR PUMP
& Power Bank

NEW

KS503

The KS503 is a new rechargeable battery-powered air compressor, which can be charged via USB port or directly from the motorcycle battery. It can also be used as an emergency flashlight or as a power bank. Its backlit digital display is clear and intuitive, allowing easy parameter control even in low-light conditions.

Included equipment:

- LCD display with pressure indicator
- USB-C charging cable
- Cigarette lighter cable
- Air hose from compressor to tire with American valve (standard for motorcycles and cars)
- Adapters for French valve (used on bicycles)
- Needle adapter for inflating soccer balls
- Needle adapter for inflatable accessories

Technical specifications:

- Weight: 450 g
- Dimensions: Ø128 mm x 78 mm x 45 mm
- Charging time: 3-5 hours
- Battery: 4000 mAh
- Operating temperature: -20°C to +60°C
- Maximum pressure: 10 BAR (150 PSI)

K'THERMOGRIP *NEW*

KS606

THERMOGRIP – Universal Handlebar Muffs for Motorcycles and Scooters

The KS606 THERMOGRIP muffs are designed to provide thermal comfort and protection while riding in cold weather.

Thanks to their soft inner padding, they keep your hands warm even in harsh conditions, without compromising control or maneuverability.

The outer material is water-repellent, ensuring protection from rain and wind.

Quick installation:

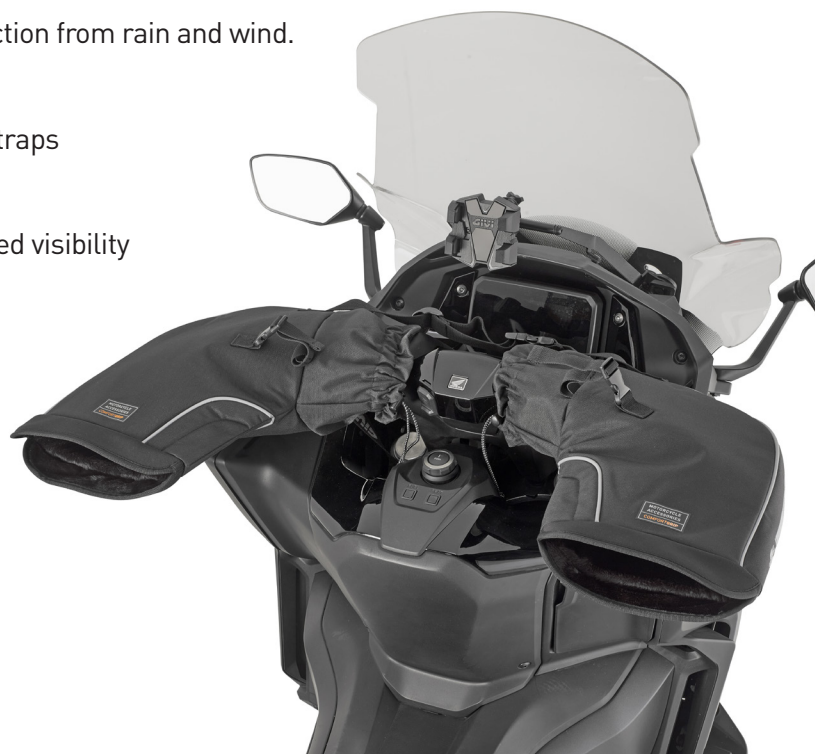

Easily mounted without tools, using practical elastic straps that fasten to the rear-view mirrors.

Safety:

Equipped with reflective prints and inserts for enhanced visibility in low-light conditions.

Materials:

- Poly 600D / Neoprene

→ ACCESSORIES

USB PORT
A+C CHARGER

NEW

KS121

Compact, powerful, and safe USB charger for motorcycles, compatible with tubular handlebars with a diameter between 22 and 25.4 mm.

Multiple protection function

Equipped with integrated safety systems, the charger provides protection against overvoltage, undervoltage, and output short circuits, as well as reverse polarity and internal chip overheating, ensuring stable and reliable operation in all conditions.

Dual fast charging A + C

Equipped with a 30W USB-C port and an 18W USB-A port, it allows you to charge two devices simultaneously, quickly and efficiently — even while riding.

Durable advanced ABS material

Made of high-strength ABS, durable and scratch-resistant.

Water resistance rating: IP67
